

Sussex Golf Captains  
Founded 1964

## SUSSEX GOLF CAPTAINS

### Inter County Match Results Initially Compiled by John Teasdale (Captain 2007)

Until 2008 no lasting records were maintained of our inter county matches, research into the available documents of our own and other societies, together with some personal records and recollections by past captains, have enabled a substantial element to be recreated.

#### Inter County Matches

The first identified reference to any inter county society match is dated 1970 but was reported as a "...friendly with past captains from Hampshire where a new society is being formed.." This took place at Hayling Island and was won by the Hampshire captains.

The first formal match was against Kent at Knole Park, again in 1970, and was won by the Sussex captains. Matches have continued, on an alternate home and away basis, every year since and a full record of venues and results have been established. 1971 saw Surrey joining what was to become an extensive annual programme, the first match taking place at Tandridge in 1971. Again a full record of venues and results has been established.

Hampshire joined this programme in 1972 when a match took place at West Sussex. Unfortunately it has not proved possible to complete a full set of venues and results, early records simply not being available.

The next expansion of the programme was in 1982 when a match against Essex was arranged, and won, at Seaford. Again, early records, particularly those relating to Essex venues, are not available and there are gaps in the information relating to these matches. A first match against Dorset was arranged in 1986 (although the first three venues are known the results are not and these five formed our annual programme until 1995.

The nine years between 1995 and 2004 saw a rapid expansion in the matches played up to the present number of 14. First matches were arranged against Buckinghamshire in 1995, London and Cornwall in 1996, Wiltshire in 1998, Oxfordshire in 2000, Devon, Cambridgeshire and Somerset in 2002 and Hertfordshire in 2004. All venues and results have been established for these matches.

There is a note that a match was played in 2000 at Torquay but it is reported as being "...between visiting friends..." Similarly, the 1977 AGM report notes a visit to Chipping Sodbury to play a Gloucestershire team but nothing further developed. It is likely that this contact is related to personal friendships given the initial use of the Gloucestershire society rules in establishing our own society in 1964.

The available records of the venues and results of the inter county matches are shown in other pages. Should anyone have any information relating to the missing data, please contact our secretary.
